

Sunbury students in the summer enrichment program enjoy a "hands-on" activity.

"The XIII Latino Symposium explores the exile and immigration experiences of Spanish speakers who *have crossed* many *borders* to enter the United States. It also *celebrates* the numerous ways in which Susquehanna University students have themselves *crossed* linguistic, cultural and geographical borders in order to *create bonds* of *support* with Latinos in this region and *far beyond.*"

In Sunbury, Latino youth are "all smiles and full of pride" after completing a writing activity.
