

GRANT APPLICATION – CENTER FOR TEACHING AND LEARNING

Name: _____

Department: _____

Briefly describe your proposed activity and specify how it would ultimately benefit student learning (i.e., what kind of curricular or pedagogical innovations are you likely to adopt as a result of your proposed activities?). Also include a list of estimated expenses.

Have you ever previously received a grant from the Center for Teaching and Learning? If so, when – and how has that grant enhanced your teaching?

For this grant proposal, are you seeking other sources of funding? If so, what are they?

To receive a grant, an applicant must agree to share with SU faculty colleagues the knowledge that he or she gains via the grant-supported activity. Typically, this involves the recipient's participation in an on-campus workshop where he or she briefly discusses the lessons that were gleaned from the grant-supported experience. In this way, all faculty stand to benefit. By signing the application below, you agree to participate in such a session, to be organized by the Center for Teaching and Learning, if you are awarded a grant.

Also, please note that grant monies are awarded as reimbursements. Individuals are responsible for submitting receipts and other relevant documentation to the Center for Teaching and Learning. Expenditures exceeding the amount of the grant are not guaranteed to be covered.
