

Thinking about MED SCHOOL?

Think about
double-majoring
in Philosophy.

Philosophy majors have
among the highest acceptance
rates to medical school.

In 2000-2001, 50.2% of philosophy
major applicants to medical school
were accepted (second highest);
in 1999-2000, 53% of philosophy
major applicants to medical
schools were accepted (highest).

PHILOSOPHY

**makes you better
at what you do...
whatever you do.**
