

Spring 2023 Exam Schedule

Saturday and Sunday, May 6 and 7, are reserved as reading days.

Exam blocks are 2 hours.

No forms of assessment may take place on reading days.

In the unlikely event that a student has 2 exams scheduled at that same time, please contact the instructor to make alternate arrangements. Changes to locations and/or class times may necessitate changes to the exam schedule.

In the unlikely event that a student has 2 exams scheduled at that same time, please contact the instructor to make alternate arrangements.

No final exams may be given during the last week of classes. Quizzes and tests may be given during the last week of classes if a final exam is also given during the final exam period.

End-of-unit tests that are the last exam in the course must be given during the designated exam period for the course.

Take-home final exams, papers, projects or portfolios that are assigned in lieu of an in-class final exam must be due at the course's designated exam time.

Final assessments with a performance aspect, such as juries, critiques, presentations, performances, and oral exams may take place during the last week of classes due to the difficulty of fitting them into exam periods.

Due to the complexity of the final projects, capstone courses and some courses at the 400-level and above may also be assessed outside the final exam period.

Students are expected to take final examinations at the designated time. Individual exceptions may be granted by the faculty member in case of emergency.

Students with three final exams in one day may request that one of their exams be moved.

Such arrangements must be made before the last week of classes.
